## Website Building Continuum

## Professional Development

Hand coded:
HTML
CSS
JavaScript
PHP
MySQL

Libraries,
Templates, and
Frameworks
e.g. jQuery;
Bootstrap

Website Builders (automated coders) e.g. Adobe Spark; Webflow

CMS Frameworks e.g. WordPress, Drupal, Joomla Hosted Automated
Websites
e.g. Squarespace,
Wix, Weebly,
wordpress.com

Hacking/flailing around

Hand coded / manual
Difficult & time consuming
Most flexible & customizable

Automated Simple (debatable) & Fast Least flexible & most constrained
